

Loss of Control - VFR into IMC

Pilots make mistakes, and some mistakes are fatal. The Nall report, the most comprehensive study of general aviation accident trends, highlights areas of concern. One of the most dangerous for VFR pilots is VFR into IMC. Come to the seminar to learn about these incidents and what you can do to prevent being in such a situation.

Directions: Slidell airport main office building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
